

LISTOPAD - OCTOBER 2014

Održan prvi sastanak COST akcije TN1401 CAPABAL- Izgradnja kapaciteta u šumarskoj politici i upravljanju u zemljama Zapadnog Balkana (*Capacity building in forest policy and governance in Western Balkan Region*) u Hotelu International u Zagrebu

U Zagrebu je 2. listopada 2014. održan prvi sastanak [COST akcije TN 1401 CAPABAL](#) koju koordinira Hrvatski šumarski institut (HŠI). Za razliku od uobičajnih COST akcija ovdje se radi o tzv. [targeted network](#) (TN) akciji koju neposredno odobrava COST-ov *Committee of Senior Officials* za početak na dvije godine s mogućnošću produljenja još dvije godine u slučaju pozitivne ocjene. Za sada je to četvrta odobrena akcija ovakvoga tipa, a tek druga COST akcija uopće koju koordinira neka hrvatska znanstvena institucija. Na sastanku u Hotelu International u Zagrebu sudjelovali su predstavnici COST-a, te predstavnici zemalja koje su do tada prihvatile Memorandum o razumijevanju. Do sada se u akciju uključilo 14 zemalja, a još ih je nekoliko izrazilo želju da budu dio nje. Na sastanku je zaključeno da će akciju koordinirati Hrvatski šumarski institut, dok će predsjedavajuća biti dr. sc. Dijana Vuletić (HŠI), a njen zamjenik Prof. Mersudin Avdibegović (Šumarski fakultet u Sarajevu). Diseminaciju i administraciju preuzeo je Zavod za međunarodnu znanstvenu suradnju jugoistočne Europe – EFISEE pri HŠI-u. Za temu je odabrana problematika nacionalne šumarske politike koja je interesantna svim zemljama sudionicama, a posebno ciljanoj regiji. Veselimo se novom sastanku koji će biti održan u Beogradu u veljači 2015. o čemu ćemo Vas obavijestiti na vrijeme!

Kick off meeting of the COST action TN 1401 CAPABAL- Capacity building in forest policy and governance in Western Balkan Region took place at the Hotel International in Zagreb

Kick-off meeting of the [COST action TN1401 CAPABAL](#) took place at the Hotel International in Zagreb on 2 October 2014. This action differs from the usual COST action since this is [targeted network](#) that is directly approved by the Committee of Senior Officials for the duration of two years with the possibility of extension in case of good evaluation results. So far this is the fourth COST action of this type and only the second in general that is coordinated by Croatian scientific institution. Representatives of the countries who have accepted the Memorandum of Understanding participated in the meeting together with COST officers. So far 14 countries accepted the Memorandum and several others indicated the willingness to join this action. It is agreed that the coordinator and grant holder will be Croatian Forest Research Institute (CFRI), and the chair is Dr. Dijana Vuletić, the director of the Institute. The vice-chair is Prof. Mersudin Avdibegović from the Faculty of Forestry in Sarajevo. Dissemination and administration will be the task of the Department for international scientific cooperation in Southeast Europe – EFISEE at the CFRI. The topic of the targeted network is national forest policy which is of common interest for all participating countries, including targeted region. We are looking forward to the first working group meeting in February 2015 in Belgrade. The information on the event will be released on time!

U EFISEE zavodu Hrvatskog šumarskog instituta održan međunarodni sastanak o ekonomskom vrednovanju općekorisnih funkcija urbanih šuma i zelene infrastrukture u sklopu COST akcije FP1204 GreenInUrbs

U EFISEE zavodu Hrvatskog šumarskog instituta održan je međunarodni sastanak o vrednovanju općekorisnih funkcija zelene infrastrukture u sklopu [COST akcije FP1204 GreenInUrbs](#). Tri eksperta u ekonomskom vrednovanju općekorisnih funkcija, Maria-Beatrice Andreucci ([Sveučilište Sapienza](#),

Rim), Paul Nolan ([the Mersey Forest](#)) and Kenton Rogers ([Treeconomics](#)) predstavili su različite alate i modele za vrednovanje, uključujući i [i-Tree](#) platformu. Cilj sastanka bio je upoznati se sa različitim načinima vrednovanja općekorisnih funkcija urbanih šuma i zelene infrastrukture te kako bolje uključiti ekonomske aspekte u aktivnosti ove COST akcije. Generalno možemo reći da nema puno istraživanja koja se bave ekonomskim aspektima urbanog šumarstva i zelene infrastrukture. S druge strane rezultati ovakvih istraživanja pomažu u komunikaciji sa donosiocima odluka jer omogućuju kvantitativno prikazivanje važnosti drveća u gradovima.

At the EFISEE office small group meeting on economic valuation of ecosystem services from green infrastructure within the COST action FP1204 GreenInUrbs took place on 28 October 2014

Small group meeting on valuation of green infrastructure benefits took place at the EFISEE office on 28th October 2014 within the [COST action FP1204 GreenInUrbs](#) (Green Infrastructure Approach: Linking environmental with social aspect in studying and managing urban forests). Three experts, Maria-Beatrice Andreucci ([Sapienza University, Rome, IT](#)), Paul Nolan ([the Mersey Forest, UK](#)) and Kenton Rogers ([Treeconomics, UK](#)), presented various tools and models for economic valuation of benefits from green infrastructure including [i-Tree](#) toolkit. The goal of the meeting was to discuss how to better implement economic aspects of green infrastructure in this COST action. So far studies on economic valuation of benefits from urban forests and green infrastructure are missing. However, this sort of information is very useful when discussing with policy and decision makers since it provides quantitative evidence on the importance of trees in urban areas.

Održan međunarodni skup Potpora šumarskom sektoru kroz EU fondove

U Hrvatskoj gospodarskoj komori u Zagrebu održan je 6.10.2014. skup o mogućnostima financiranja aktivnosti u šumarstvu kroz programe ruralnog razvoja, a na kojem su svoja iskustva podijelili šumari iz Slovačke i Poljske.

Europska komisija potvrdila je Sporazum o partnerstvu s Republikom Hrvatskom, ključan dokument za korištenje 10,7 milijardi eura iz EU fondova!

Ministarstvo regionalnog razvoja i fondova Europske unije RH objavilo je da je [Europska komisija potvrdila Sporazum o partnerstvu](#). Radi se o strateškom dokumentu koji omogućuje korištenje 10,7 milijardi eura iz [strukturnih i investicijskih fondova EU](#), između ostalog i korištenje sredstava namijenjenih za Program ruralnog razvoja RH u periodu 2014.-2020. koji još uvijek nije poprimio konačni oblik. Ovaj sporazum pruža Hrvatskoj okvir za korištenje 8,377 milijardi eura za ciljeve kohezijske politike i 2,026 milijarde eura za poljoprivredu i ruralni razvoj. Sadržaj Sporazuma o partnerstvu možete pročitati na sljedećoj poveznici <http://www.mrrfeu.hr/default.aspx?id=4190>

European Commission confirmed Partnership Agreement with the Republic of Croatia, a key document for accessing 10.7 billion euro from EU funds

Croatian Ministry of Regional Development and EU Funds released a [statement](#) that European Commission confirmed the Partnership Agreement with the Republic of Croatia. Partnership Agreement is a key strategic document that enables access to 10.7 billion euro from [Structural and Investement Funds](#), including funds allocated to the Programme of rural development of the Republic of Croatia 2014-2020 which is still in its draft version. By this agreement Croatia is entitled to 8,377 billion euro for meeting goals of cohesion policy and 2.026 billion euro for agriculture and rural development. The content of the Partnership Agreement is publicly available on the following link <http://www.mrrfeu.hr/default.aspx?id=4190>

Ministarstvo poljoprivrede RH zaprimilo komentare Europske komisije na prijedlog Programa ruralnog razvoja Republike Hrvatske za razdoblje 2014.-2020.

Ministarstvo poljoprivrede objavilo je na svojim mrežnim stranicama da su zaprimili ukupno 377 komentara Europske komisije na radnu verziju poslanu u srpnju ove godine, od čega se glavnina odnosi na bolje pojašnjenje pojedinih poglavlja, te bolje povezivanje prepoznatih potreba i predloženih mjera. Kako bi se cijeli proces ubrzao, Ministarstvo će dostaviti svoje komentare i odgovore u Europsku komisiju na engleskom jeziku. Cijelu obavijest kao i zaprimljene komentare možete pročitati na sljedećoj poveznici <http://www.mps.hr/default.aspx?id=13026>

Croatian Ministry of Agriculture received comments from European Commission for the draft version of the Programme of rural development of the Republic of Croatia (2014-2020)

Ministry of Agriculture of the Republic of Croatia received 377 comments from European Commission (EC) on the draft Programme of rural development 2014-2020 that was sent in July 2014. The majority of comments are related to better explanation of some chapters and better linking of identified needs and proposed measures. For the purpose of speeding up the process, the Ministry agreed to send back comments to EC in English. Comments from the EC are available on the following link <http://www.mps.hr/default.aspx?id=13026>

U sklopu COST Akcije FP1203 „European non-wood forest products network (NWFPs)“ održana radionica na temu modeliranja vezanog za nedrvne šumske proizvode, 29/9/2014-3/10/2014

Krajem rujna u El Escorialu (Madrid) održana je petodnevna radionica na temu modeliranja vezanog za nedrvne šumske proizvode u sklopu COST Akcije FP1203 „European non-wood forest products network (NWFPs)“. Na radionici je sudjelovalo dvadesetak polaznika iz dvanaest zemalja. Najveći broj sudionika bio je iz regije, a predstavnici Hrvatskog šumarskog instituta bili su Anton Brenko i Marta Curman. Ostali sudionici iz regije bili su Ivana Kušan (HR), Vaska Nedanovska (MK), Dejan Stojanović (SRB), Katja Geltar (SLO,) Marsela Luarasi (AL) te Ilie Cosmin Cantar (RU). Radionica se sastojala od predavanja i praktičnog dijela. Sudionici su imali priliku upoznati se sa SAS i R statističkim paketima, statističkim metodama, bazom podataka za nedrvne šumske proizvode, primjerima modeliranja nedravnih šumskih proizvoda i dr. Osim toga, sudionici su održali vlastite prezentacije vezane uz modeliranje nedravnih šumskih proizvoda te sudjelovali u terenskom radu na inventarizaciji nedravnih šumskih proizvoda. Više o sadržaju radionice možete pronaći na sljedećoj poveznici:

A five-day Workshop on modelling related to non-wood forest products within the COST Action FP1203 „European non-wood forest products network (NWFPs)“ took place in Madrid, 29/9/2014-3/10/2014

At the end of September in El Escorial (Madrid) training school on modelling non-wood forest products was held within the scope of COST Action FP1203 „European non-wood forest products network (NWFPs)“. Five-day course hosted 20 attendees from twelve countries with majority from the South East Europe region. Representatives of the Croatian Forest Research Institute were Anton Brenko and Marta Curman (EFISEE). Other participants from the region were Ivana Kušan (CRO), Vaska Nedanovska (MC), Dejan Stojanović (SRB), Katja Geltar (SLO) Marsela Luarasi (AL) and Ilie Cosmin Cantar (RU). The course included theoretical lessons, field exercises, case studies and practical computer sessions where attendees used different statistical packages (R, SAS®) in order to solve real modelling exercises. The participants also presented their own or hypothetical studies related to the modeling of NWFPs and participated in field inventory of NWFPs.

Sastanak ravnatelja zavoda i agencija za zaštitu prirode i visokih predstavnika resornih ministarstava u jugoistočnoj Europi održan je na Ohridu u Makedoniji, 21-22/10/2014

Sastanak je organizirao ured IUCN-a za JI Europu te Ministarstvo okoliša i prostornog uređenja Republike Makedonije uz financijsku potporu MAVA fundacije kao dio projekta *Toward Strengthened Conservation Planning in South-Eastern Europe*. Državni zavodi za zaštitu prirode Hrvatske i Slovenije predstavili su proces harmonizacije nacionalne sa EU legislativom te implementaciju NATURA 2000 ekološke mreže. Također je bilo riječi i o određivanju prioriteta u zaštiti prirode te mogućnostima suradnje na regionalnoj razini.

Meeting of the Directors of Institutes and Agencies for Nature Conservation with the Ministries officials in the Southeast Europe was held in Ohrid in Macedonia, 21-22/10/2014

The meeting was organized by the IUCN Programme Office for South-East Europe and the Ministry of Environment and Spatial Planning of Macedonia, with financial support from the MAVA Foundation as a part of the project Toward Strengthened Conservation Planning in South-Eastern Europe. The National Institutes for Nature Conservation from Croatia and Slovenia presented the harmonization of the work processes with the EU legislation and the implementation of Natura 2000 ecological network. One of the topics included also defining of priorities for the nature protection and opportunities for cooperation at the regional level.
